

Graduate School of Chemistry, Biology and Physics

ENSCBP – Bordeaux INP's engineering programmes (Master's – year 5) are open to students from around the world, through exchange programs such as Erasmus+, Arfitec, Brafitec and Mexfitec. The school is strongly committed to advanced research and industrial partnerships. Bordeaux and the surrounding region provide excellent living conditions: economic vitality, lively cultural scene, historical heritage, beautiful atlantic coastline.

5 engineering programmes (Master's)
including 3 work-study programmes

A Word from the Director

What is our aim? To train responsible engineers who can create value in a changing world. We offer rigorous scientific and managerial training with an international outlook, a strong research and innovation focus and close ties with industry. When you choose ENSCBP - Bordeaux INP, you are choosing a forward-looking graduate school at the forefront of sustainable development issues and with strong ethical and environmental values. Our training paves the way for success, solid long-term employment prospects and a rich and varied career.

Fernando Leal-Calderon

A

Food Science and Bioengineering

Food Science and Industrial Engineering ^A

Chemistry and Physical Engineering

Materials Science ^A

Composite Materials and Mechanical Engineering ^A

& 3 Masters of Science (in English)

Applied Formulation of Polymers and Colloids

Inorganic Materials Design and Processing

Micro & Nanotechnology

BORDEAUX INP

9 graduate schools* in France

3400* students

(selected through national competitive exam)

12% international students

20* programs

including 5 by apprenticeship

240 faculty members

11 joint research centers

140 partnerships worldwide

International

over 50 partnerships

10% graduates work abroad

83% graduates have spent long periods of time abroad

B2: required level of English for graduates

7 foreign languages taught

Jousot Dubien Award

€10,000 scholarship for a foreign student to enrol in an ENSCBP programme

In partnership with Ariane Group

Student life

7 associations - 20 sports and cultural clubs

40 sports offered

> Sports tournaments, fun events and activities throughout the year

Research - Transfer

8 JOINT RESEARCH CENTERS in the following fields: Chemistry, Physics, Nutrition, Neuroscience, Oenology, Polymers, Soft Condensed Matter, Molecular Science, Materials & System Integration, Nanotechnologies

61 ACADEMICS AND RESEARCHERS

100 PhDs, POST-DOCS

1 chair in Chemistry and Self-Assemblies

2,630 m² DEDICATED TO TECHNOLOGY TRANSFER ACTIVITIES

Industrial partnerships

150 LECTURERS from the INDUSTRY

Network of **OVER 2,000 COMPANIES**

OVER 4000 ALUMNI

Employment Prospects

200 graduates per year

1 out of 2 employed graduates signs a contract before leaving school

1 junior industry

Dina, 2012 class

"Living and studying in Santa Barbara was an amazing experience — I attended courses by prestigious professors, took part in traditional American celebrations and met people from around the world. So what are you waiting for to study abroad?"

Dina is a Moldovan engineering graduate of ENSCBP. After internships in Ireland and Germany, Dina spent one year studying at the University of California. She then went on to complete a PhD in Italy, for which she received a Pierre and Marie Curie scholarship, awarded by the European Commission.
